

# ECO CUTLERY

## 5 reasons to break your single-use plastic habit

- Harmful plastic components accumulate in your body
- Plastic decomposition releases methane, a powerful greenhouse gas that changes climate
- Plastic takes a very long time to decompose (400-500 years)
- Plastic is to be refused by the world community in near future
- Plastic disposable tableware is surprisingly more expensive compared to biodegradable materials

## ABOUT THIS PRODUCT

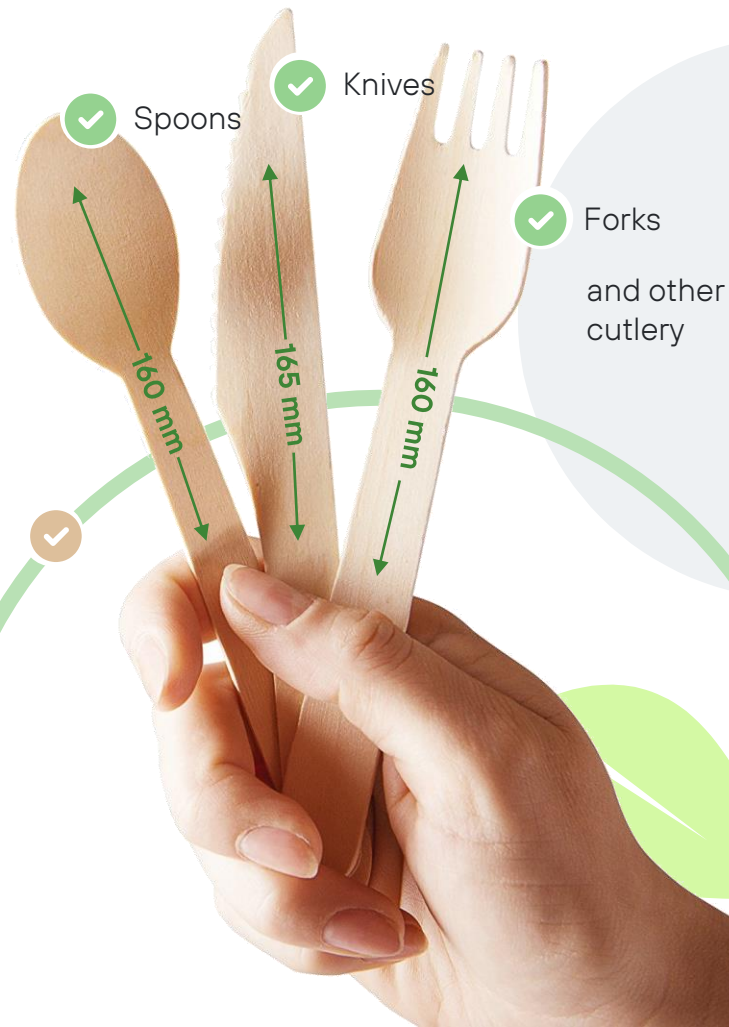

We offer disposable wooden cutlery made of environmentally friendly material (birch) without using of glue, dyes and other chemicals.

Safe for children and adults as they have high strength and are heat treated

Suitable for hot and cold food products

Pleasant to touch and do not have specific odors

Safe for the environment

We sell wholesale and retail!

Difficulties in disposal  
and about 100 years of  
decomposition period

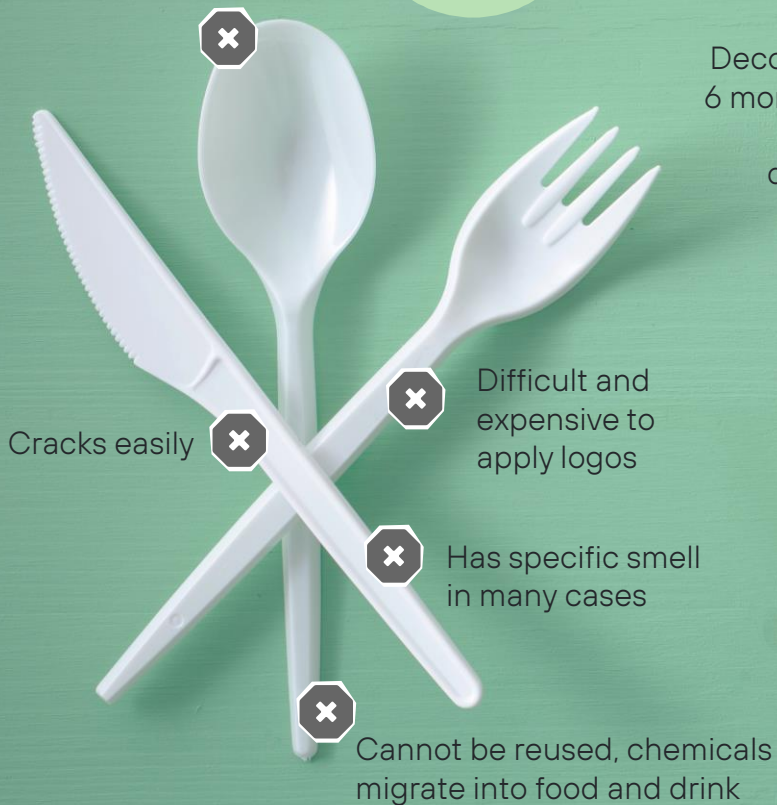

## PLEASE COMPARE:

Reusable if necessary, wood  
does not cause harm to health

Decomposes from 2 to  
6 months and does not  
require special  
disposal measures

Not subject to  
deformation

Easy and  
cheap to  
brand

# ADVANTAGES

The raw materials (birch veneer) which our products are made from, are certified by the independent forest certification FSC. Birch is the best option for decent quality cutlery production. Please see below for how birch looks different compared to other disposable biodegradable wooden products:

	Hardness	Density	Price
BAMBOO	● ● ● ● ●	● ● ● ● ●	👎
LINDEN	● ● ● ●	● ● ● ●	👍
<b>BIRCH</b>	● ● ● ● ●	● ● ● ● ●	👍
MAPLE	● ● ● ● ●	● ● ● ●	👍
PINE	● ● ●	● ● ● ●	👎

## ABOUT THE COMPANY

We are experienced professionals in our sphere, united by eco-values. EcoStyle has a reputation for being a reliable and profitable partner, with a considerable experience in working not only with companies in the Russian Federation, but also in the USA/EU. Our key products are eco-friendly biodegradable disposable appliances made of wood. Our values are:

### CARE

We recreate nature, strive to help people to be closer to it and try to solve waste disposal problems

### EFFICIENCY

We increase the efficiency of our workers by using advanced technologies, expert knowledge and professionalism

### QUALITY

We ensure a high quality of our products by inspecting each stage of production and packaging

### REPUTATION

We value our business reputation, trust of our customers and the well-deserved respect of consumers

## Contacts

We are ready to show more and answer any questions!
